PROFESSIONAL SUMMARY

I am a wordpress and Full Stack Developer with over 8 years of experience in crafting high-quality web applications and consumer-focused websites. Proficient in both front-end and back-end development, leveraging technologies such as the MERN stack (MongoDB, Express, React, Node.js), HTML, CSS, PHP, and MySQL. Demonstrated ability to deliver scalable, performant solutions and enhance user experiences through meticulous design and innovative problem-solving. Adept at managing the full software development lifecycle, from concept to deployment, with a strong focus on best practices and continuous improvement. Proven track record in collaborating effectively with cross-functional teams to achieve project goals and meet client needs

Technical Skills:

Languages & Frameworks:
HTML, CSS, JavaScript, Bootstrap, PHP, Node.js, React, Express
Wordpress, Laravel,, Bubble.io, Codeigniter

Databases: MySql, MongoDB

Development Tools:
Visual Studio Code, Git/GitLab/BitBucket, Postman, Insomnia, Adobe Animate, Photoshop

Web Technologies:
API integrations, third-party services, database management, responsive design

WORK HISTORY

April 2022 - Current
Full Stack Developer, *Emvigo Technologies Pvt Ltd* , Ernakulam

Designed and developed wordpress and full-stack web applications using the MERN stack, focusing on creating scalable and high-performance solutions.

Developed dynamic user interfaces and user experiences with React, integrating RESTful APIs and managing state with Redux.

Implemented server-side logic and database management using Node.js, Express, and MongoDB.

Optimized application performance and security by employing best practices and modern development techniques.

August 2016 - March 2022
WordPres/Web Developer, *Ipix Technologies Pvt Ltd* , Calicut

Developed and customized WordPress sites, themes, and plugins, meeting specific client requirements and design specifications.

Converted PSD files into responsive WordPress themes, integrating additional functionality through custom coding and plugin installation.

Managed back-end development with PHP and MySQL, ensuring database integrity and smooth operation of web applications.

Utilized JavaScript and jQuery for interactive and dynamic web features, enhancing user engagement and functionality.

Integrated third-party services and APIs to extend application capabilities and improve overall performance.
